

Tax Data Archiving

Long-Term Data Storage and Management Solutions

Corporate tax compliance is an ongoing process. As each filing year comes to a close, a vast amount of detailed documentation and calculations still remain. As a result, the accumulation of data from each tax year adds up to a mass of information that must be retained, managed and kept available for future use.

CORPTAX Tax Data Archiving service can help you maintain control of your compliance data throughout its lifecycle.

Professional, Capable and Secure

As corporations strive for better ways to manage previously filed tax data more effectively, CORPTAX® users now have the advantage of a reliable, long-term tax data storage solution for previous years' compliance data.

With CORPTAX® ASP Archiving service, your company can safely and easily store numerous years of previous tax data in a protected, off-site environment. Our state-of-the-art data center is staffed with highly skilled system professionals. CORPTAX technicians oversee the data transfer, archiving and storage process, ensuring that your data is secure and remains readily available.

Tax Data Archiving You Can Rely On

Your tax data is always in capable hands with CORPTAX archiving services. CORPTAX professionals provide the proven framework, facilities and infrastructure necessary to ensure your data is protected.

Servers are monitored closely. If any support issues related to the system should arise, they are quickly handled by our technical support personnel, who are ready to respond to your questions. CORPTAX technicians possess an in-depth knowledge of operating systems and of the client's environment.

Access to the servers is secured by passwords, firewalls and other security measures, which means no unauthorized access to your records.

Simplify Your Data Archiving and Retrieval

You don't have to be a current ASP client to take advantage of this service. Once properly licensed, you simply upload your data to our secure FTP site. You will receive a CORPTAX provided URL and system credentials (password). When the need arises, you can access your tax data via Remote Desktop Protocol (RDP) to get the information you need.

CORPTAX Archiving Advantage

- Save time, money and resources by eliminating the need to store, manage and support historical tax data internally
- Allows your organization a safe and cost-effective means to maintain compliance requirements for previously filed tax data
- CORPTAX stores enterprise tax data across multiple applications including CORPTAX® FS/CS, CORPTAX® ETS and CORPTAX® U.S. Compliance software
- Retrieve tax data dating as far back as 1999
- Online access to your archived or retired data
- Reduces reliance on limited internal IT resources
- Secure data center, protected from unauthorized access by:
 - ◆ Video Surveillance
 - ◆ Key Card Access
 - ◆ Biometrics & PIN
 - ◆ Alarm system with third-party monitoring
- Convenient and secure data transfer process
- Well-trained and knowledgeable technical personnel

CORPTAX provides complete tax lifecycle management from data collection through data retirement. For more information, please call 800-966-1639 or visit our website at www.corptax.com.

About CORPTAX, Inc.

CORPTAX, Inc. is one of the leading developers and licensors of domestic and international corporate tax software systems. For more than 30 years, companies have relied on CORPTAX® software to help integrate and automate tax department processes, eliminate manual and redundant tasks, enhance data accuracy and quality, and dramatically improve planning and analysis capabilities.
